

BEING WELL COMMUNICATIONS

SEMINARS

Dr. Verna Hunt, BSc, DC, ND, teaching hands-on seminars.

SEMINAR 3 **Beyond Palpation:**

When you touch, what does the information you see and feel indicate, and how does this affect your therapeutic choices?

The skin is the largest organ of the body and rests upon subdermal and connective tissues. Practitioners with developed palpation and clinical observation skills can discern information about overall health and specific areas of concerns, from actual skin conditions to nutrient insufficiencies, and more. Through skilled palpation, the practitioner can deliver types of treatment to the patient for their individual needs.

DATE:

September 29, 2018 • 8:15 a.m. – 5:00 p.m.

LOCATION:

Viriditas Herbal Products, Ltd.
2775 Dundas St. West, Suite 101, Toronto, Ontario

FEES:

One person: \$224.87 (HST INCL.) • Two people: \$339.00 (HST INCL.)

Eligible participants are licensed practitioners for hands-on therapies:

ND • DC • RMT

TO REGISTER, FILL OUT THE FORM AND SEND TO:

verna@beingwellcommunications.com

Space is limited to 15 participants, so register ASAP.

SEMINAR 3

Beyond Palpation:

When you touch, what does the information you see and feel indicate, and how does this affect your therapeutic choices?

The skin is the largest organ of the body and rests upon subdermal and connective tissues. Practitioners with developed palpation and clinical observation skills can discern information about overall health and specific areas of concerns, from actual skin conditions to nutrient insufficiencies, and more. Through skilled palpation, the practitioner can deliver types of treatment to the patient for their individual needs.

The key learning highlights of this manual therapy seminar are:

- Palpation of the skin of all ages, gender, body types to determine health of the skin, temperature types, neurological responsiveness, signs of malabsorption and insufficiencies
- Assessing skin conditions for causative factors and determining manual treatment and external application therapies
- Various touch techniques to deliver specific therapeutic needs and results
- Review of skin and subdermal anatomy
- Ability to manually treat:
 - ♦ Scar tissue
 - ♦ Adhesions
 - ♦ Temperature re-regulation via touch affecting lymphatic drainage, neurological rebalancing and cranial-sacral breathing
 - ♦ Application of external therapies
 - ♦ Improving resolution of injuries: black eyes, bruises, swelling in external tissue due to surgery, sprains, falls (especially falling onto the hands, face and skull) etc.

Power point slide notes will be sent to each participant a few days before the seminar for you to print or bring on computer/tablet.

For information on future seminars visit:
